Homebuilders

This English/French Tudor-style home is located in a new private enclave of four one-acre homes nestled in the heart of Creve Coeur. The inviting interior includes 10'+ ceilings with special design features, 7' two-panel solid core doors, wooden window surrounds, custom drywall arches with rounded corners and satin nickel lever handles. Pamper the chef with this designer kitchen featuring quartz countertops, Energy Star stainless-steel Thermador appliances, including six-burner gas cooktop, built-in drawer microwave, separate electric double wall ovens and a walk-in pantry. The oversized great room features a see-through gas fireplace to the hearth room with a granite surround and metal mantel. The master bedroom includes a luxury en suite with his-and-her adult-height vanities, quartz top, under-mount sinks and a custom shower with a frameless glass enclosure. The lower level is unfinished but pre-plumbed for the future. Also includes a four-car, side-entry garage.
